To whom it may concern:

Letter of Support

We are pleased to offer our support to the Dolphin Sands Ratepayers Association for the Meredith River pedestrian/cycling bridge project.

The Project aligns with key product development strategies for East Coast Tasmania Tourism and will offer a supportive product to Dolphin Sands.

East Coast Regional Tourism Organisation is responsible for supporting the growth of the visitor economy in this region of Tasmania to help achieve the Tasmanian's Government's overnight visitor expenditure goal for 2021.

The passionate Dolphin Sands Ratepayers Association have requested the S Group in Launceston to work on a concept design and have commissioned a Natural Values Report from ECOTAS.

We completely support their application for a Healthy Tasmania fund grant for seed funding for the concept design as well as a geotechnical report and cross-sectional survey of the Meredith River.

Yours faithfully,

Rhonda Taylor
CEO
